

Portland PowerLED Bi-Color

This bi-color light offers a full-brightness white LED (warm white or cool white) with a secondary color (red or blue). The white LED is fully-dimmable with the use of a PWM dimmer and a momentary switch. A three-position switch is used to toggle between the two different LED colors and off. This light is ideally suited for the helm area and nighttime navigation

An excellent choice for:

- Helm and nav stations
- Salon
- Exterior overhang or hardtop

Portland PowerLED Bi-Color

Features

- Bi-color design combining a fully-dimmable white LED with a secondary color
- Anodized aluminum construction for optimal thermal management
- Integrated driver electronics
- Low profile design
- PWM Dimming interface

Benefits

- Substantial power savings
- No radiated heat
- Maintenance-free; no more bulb changes
