Let's face it, top-notch body repair is all about perfection. A flawless finish and an immaculate shine. But finding products that deliver anything near perfection has been nearly impossible.

Even through years of creating award-winning finishes for luxury and performance cars, body shops still battled with burn through and swirls using the standard "compound-polish-glaze" method. To us, it wasn't perfection. So we studied the polishing methods that give telescope and eye-glass lenses their flawless, optical finish. By applying these methods and new technologies to the chemistry of paint., we created

the unique SYSTEM 51 Perfect Cut cutting polish to share with you.

SYSTEM 51 uses the nanotechnology of engineered microscopic particles to safely polish paint to a perfect finish - with one simple, water-based product. No burn through. We don't use fillers or glazes to cover up swirls marks! Just flawless results. It's easy and it'll save you time and money. Try it and you'll never put yourself through the old, multi-step process again.

It is simple and it works!

President

Perfect Cut cutting polish

Perfect Cut cutting polish is a specifically formulated water-borne product for perfectionists. For those seeking an even, consistent, optically pure finish while virtually eliminating the possibility of surface burn and swirl marks. Perfect Cut will polish any painted surface to a perfect, swirl free finish using a wool pad to cut and a foam pad to polish using only one product "Perfect Cut". The key to success with the Perfect Cut cutting polish is to use pressure when both cutting and polishing. System 51 recommends protecting the freshly polished surface with the System 51 "Replenish Wax" which is also a water-borne product.

PART NUMBER	SIZE
SYS007-1	8 oz.
SYS007-2	1 quart
SYS007-3	1 gallon
SYS007-4	5 gallon
SYS007-5	55 gallon

Pro Cut cutting polish

Pro Cut cutting polish is specifically formulated water-borne product for professionals seeking a more aggressive cutting polish. Pro Cut will polish any painted surface to an even and consistent finish while dramatically minimizing the chance for surface burn. Pro Cut is basically the same product as the Perfect Cut but with twice the cutting power. People have referred to the Pro Cut as liquid sand paper in the boating industry. System 51 recommends using the "Perfect Cut" following the Pro Cut to achieve that swirl free finish. System 51 also recommends using the "Replenish Wax" to protect the freshly polished surface. The Pro Cut, Perfect Cut and the Replenish Wax are all water-borne products to keep in mind.

Replenish Wax

Now that you' ve got an incredible shine, protect it.

Developed in a body shop for high-end autos that deserve the finest high-gloss finishes, our custom engineered System 51 Replenish Wax is an easy to use carnauba product that cleans, beautifies and protects. Spray the super-fine mist on the body, bumpers, grill, plastic trim and chrome after washing, wipe it off and buff to an incredible sheen. That' s it. The water-based formula dries fast without white film, residue or fumes. It even stands up to Mother Nature' s hottest and coldest punishment.

It can also be applied by rubbing it on the car with an applicator pad and buff it off. Thin 50% with water for a super pad lubricant while using the Perfect Cut cutting polish, or to make a great quick final detailing spray wax, for those last minute touch ups for a "hot date" or hot car show.

Replenish Wax is an advanced, water-borne, spray wax engineered to clean and shine any surface or material and protect it with a durable coat of 100% carnauba wax. University tested and proven to shine longer, repel dust and moisture, and bring life back to any painted surface or material. The Replenish Wax is a highly concentrated wax that can be cut 50/50 with water to create a great quick detailer. System 51 Replenish Wax will even remove stubborn stains from carpet and textiles

MARINE & RV POLISH & WAX

The System 51 Marine/RV Polish & Wax is a special mixture of the Perfect Cut cutting polish and the Replenish Wax. The Marine/RV Polish & Wax works by buffing with a foam pad to remove light scratches while you put an even coat of 100% carnauba wax. System 51 recommends using a System 51 Micro Fiber Towel to wipe off excess product left behind.

All Metal Polish

All Metal Polish is specifically formulated for perfectionists seeking an even, consistent, and optically pure finish while virtually eliminating the possibility of surface burn. System 51 All Metal Polish will polish any type of metal, brass, copper, aluminum, stainless, steel, chrome, and more, to a perfect swirl free finish in one simple step and with only one product. For best results use a System 51 Micro Fiber Cloth to bring out the true shine. System 51 recommends using the "Replenish Wax" to protect the freshly polished metal surface.

Black Pearl

Black Pearl tire dressing is an advanced, non-greasy, easy to apply tire and plastic dressing that has been scientifically engineered to produce the deepest shine with the least amount of mess. It won't build up, cause discoloration, sling off at high speed, and is dry to the touch. It contains anti-static properties to help repel dirt and brake dust for a long lasting shine. Black Pearl is a water-borne product that is safe to use and easy to clean up.
